

**U.S. Army Corps of Engineers
San Francisco District
Regulatory Division**

Interagency Meeting

Thursday, January 10, 2019

9:00 AM – 12:20 PM

450 Golden Gate Avenue (between Larkin and Polk Streets)
Twin Peaks Conference Room, 4th Floor
San Francisco, CA 94102

Conference Call: 888-363-4749

Access Code: 6265590

Security Code: 0119

To Whom It May Concern:

The Corps is holding its monthly Interagency Meeting on Thursday, January 10, 2019. A representative from your agency is invited to attend so that they may hear the project presentations and offer feedback on the issues important to your agency.

The security in this building requires visitors to pass through a metal detector and belongings through an x-ray machine (Do not bring any pocket knives as you will have to return it to your vehicle, or it will get confiscated and not returned). Security wait times vary for non-federal employees, so be sure to plan ahead. Please indicate with an email or telephone call if a representative from your agency will attend. Once you arrive, please wait in the lobby for a Corps representative to escort you to the 4th Floor meeting room.

The agenda is as follows:

09:00AM – 10:00AM

Project: Montezuma Wetlands Project

Applicant/Consultant: Montezuma Wetlands LLC/Vollmar Consulting

Project Location: The project is located at the eastern edge of Suisun Marsh near the Town of Collinsville, approximately 17 miles southeast of Fairfield, Solano County.

Synopsis: The Montezuma Wetlands Project proposes to use dredged sediment to restore approximately 1,880 acres of diked and subsided former baylands to a tidal wetlands ecosystem, including some seasonal wetland features and approximately 480 acres of upland transition zone habitat. Restoration of wetlands at the site would be accomplished by engineered placement of approximately 17 million cubic yards of dredged sediment.

10:10AM – 11:10AM

Project: Google Landings Campus and Huff Parking Structure

Applicant/Consultant: Google LLC/H.T. Harvey and Associates

Project Location: The project is located on two sites situated south of Charleston Road in the City of Mountain View, Santa Clara County.

Synopsis: The project includes the construction of a new, five story office building totaling approximately 803,004 square feet at the Landings site, and a new parking structure to serve as a district parking facility at the Huff site. In addition, the project entails work to Permanente Creek to reduce the need for hardscaped structures currently in the creek while expanding the riparian corridor and including access across the creek.

11:20AM – 12:20PM

Project: Corps of Engineers San Lorenzo River Flood Control Project – Operation, Maintenance, Repair, Replacement, and Rehabilitation Manual

Applicant/Consultant: City of Santa Cruz

Project Location: The project is located along the San Lorenzo River in the City of Santa Cruz, Santa Cruz County.

Synopsis: The applicant is seeking input in attempting to develop a set of maintenance procedures which meet the goals and objectives of both public safety and habitat preservation.

Questions and/or comments about the interagency meeting should be directed to Bryan Matsumoto at 415-503-6786, Bryan.T.Matsumoto@usace.army.mil
